

## **DCi helps Medical Facility meet community needs with improved voice and data services**

**“I began doing business with DCI in March of 2003 and my interaction with the DCI team has always been very positive.**

**From the beginning, DCi helped us set up all of our communication systems and have always been very effective and pleasant to deal with.**

**At the present time, DCI acts as our network manager. They are responsive to our needs and very capable in executing their duties.**

**DCi recently installed servers and a new Voice over IP Phone System for our facilities with many new features and capabilities that allow us to improve patient communications.**

**Please do not hesitate contacting me should you wish to discuss in more detail.”**

Marta Silverberg,  
Executive Director  
Monmouth Family Health Center
